Teena,

Attached is the Donlin cover letter and enclosure with comments from HQ (OFA and OWOW). We worked with OW staff that were also reviewing the Donlin 3a letter to get their comments on the NEPA comment letter.

Use the language in this version of the letter, and you are all clear from us to send the letter out.

If you have any questions on our comments, or if you would like to discuss any of them, please give us a call. I am finishing up for the day, but I will be back on Tuesday along with Megan Barnhart, the staff lead for the project.

Thank you for working with us this week, and have a great long weekend.

Aimee
